Body

The rib structure is long, smooth, and extends well back. The ribs are well sprung, allowing adequate room for heart and lungs. Flatsidedness and flanged ribs are faults. The topline is straight, level, and free from any tendency to sag or roach, which are faults.

Hindquarters

The hindquarters are very full and well rounded, and are approximately equal to the shoulders in width. They must not appear slack or light in relation to the over-all depth of the body. The dog stands firmly on its hind legs showing a well-let-down stifle with no tendency toward a crouching stance. Viewed from behind, the hind legs are parallel, with the hocks turning neither in nor out. Cowhocks or bowed legs are serious faults. The hind feet point straight ahead. Steep, poorly angulated hindquarters are a serious fault. The dewclaws, if any, may be removed.

Tail

The tail is not to be docked, and is set in continuation of the spine with but slight curvature, and carried gaily in hound fashion. The hair on the underside of the tail is coarse.

Size

The height should not exceed 14 inches. Height over 15 inches at the highest point of the shoulder blade is a disqualification.

Gait

The Basset Hound moves in a smooth, powerful, and effortless manner. Being a scenting dog with short legs, it holds its nose low to the ground. Its gait is absolutely true with perfect coordination between the front and hind legs, and it moves in a straight line with hind feet following in line with the front feet, the hocks well bent with no stiffness of action. The front legs do not paddle, weave, or overlap, and the elbows must lie close to the body. Going away, the hind legs are parallel.

Coat

The coat is hard, smooth, and short, with sufficient density to be of use in all weather. The skin is loose and elastic. A distinctly long coat is a disqualification.

Color

Any recognized hound color is acceptable and the distribution of color and markings is of no importance.

Disqualifications

Height of more than 15 inches at the highest point of the shoulder blade. Knuckled over front legs. Distinctly long coat.

Approved January 14, 1964

Basset Hound Breed Standard
Hound Group
General Appearance

The Basset Hound possesses in marked degree those characteristics which equip it admirably to follow a trail over and through difficult terrain. It is a short-legged dog, heavier in bone, size considered, than any other breed of dog, and while its movement is deliberate, it is in no sense clumsy. In temperament it is mild, never sharp or timid. It is capable of great endurance in the field and is extreme in its devotion.

Head

The head is large and well proportioned. Its length from occiput to muzzle is greater than the width at the brow. In overall appearance the head is of medium width. The skull is well domed, showing a pronounced occipital protuberance. A broad flat skull is a fault. The length from nose to stop is approximately the length from stop to occiput. The sides are flat and free from cheek bumps.

Viewed in profile the top lines of the muzzle and skull are straight and lie in parallel planes, with a moderately defined stop. The skin over the whole of the head is loose, falling in distinct wrinkles over the brow when the head is lowered. A dry head and tight skin are faults. The muzzle is deep, heavy, and free from snipiness. The nose is darkly pigmented, preferably black, with large wide- open nostrils. A deep liver-colored nose conforming to the coloring of the head is permissible but not desirable. The teeth are large, sound, and regular, meeting in either a scissors or an even bite. A bite either overshot or undershot is a serious fault. The lips are darkly pigmented and are pendulous, falling squarely in front and, toward the back, in loose hanging flews. The dewlap is very pronounced. The neck is powerful, of good length, and well arched. The eyes are soft, sad, and slightly sunken, showing a prominent haw, and in color are brown, dark brown preferred. A somewhat lighter-colored eye conforming to the general coloring of the dog is acceptable but not desirable. Very light or protruding eyes are faults. The ears are extremely long, low set, and when drawn forward, fold well over the end of the nose. They are velvety in texture, hanging in loose folds with the ends curling slightly inward. They are set far back on the head at the base of the skull and, in repose, appear to be set on the neck. A high set or flat ear is a serious fault.

Forequarters

The chest is deep and full with prominent sternum showing clearly in front of the legs. The shoulders and elbows are set close against the sides of the chest. The distance from the deepest point of the chest to the ground, while it must be adequate to allow free movement when working in the field, is not to be more than one-third the total height at the withers of an adult Basset. The shoulders are well laid back and powerful. Steepness in shoulder, fiddle fronts, and elbows that are out, are serious faults. The forelegs are short, powerful, heavy in bone, with wrinkled skin. Knuckling over of the front legs is a disqualification. The paw is massive, very heavy with tough heavy pads, well rounded and with both feet inclined equally a trifle outward, balancing the width of the shoulders. Feet down at the pastern are a serious fault. The toes are neither pinched together nor splayed, with the weight of the forepart of the body borne evenly on each. The dewclaws may be removed.

AWARDS OF MERIT

At the judge's discretion, the Northern California Basset Hound Club will offer one Award of Merit for every five (5) entries in Best of Breed competition. There can be up to five (5) total.

JUNIOR SHOWMANSHIP

NON-REGULAR CLASSES

(Involving multiple dog entries)

Stud Dog Class - For Stud Dogs and two or more of their Get. It is not necessary that the Get be under the same ownership as that of the Stud Dog. The Stud Dog must be entered in the Stud Dog Class. The Get **must be entered** in one of the Regular or Non-Regular Classes or Best of Breed or Variety Competition. The Stud Dog shall be considered as one entry. The Stud Dog must be shown in the ring with the Get. The class will be judged on the merits of the Get.

Brood Bitch Class - Same as Stud Dog but substitute Brood Bitch for Stud Dog and Produce for Get. The Produce **must be entered** in one of the regular classes.

Brace Class - For any two BASSETS who have at least one common owner and presented by a maximum of two handlers. If a dog which is to be part of a Brace is not entered in another class, it must be entered for "Brace Class Only," full particulars must be given for each dog on individual regular entry forms. An entry form for a dog entered in another class and entered as part of a Brace **MUST** be marked accordingly in the space provided for Additional Classes, "Brace Class."

AKC National Owner-Handled Series

The AKC National Owner-Handled Series is a non-titling competition for dogs that are exhibited by their owners that are not professional handlers.

All dogs that are owner-handled and are not owned, co-owned or exhibited by professional handlers* meet the requirements for this competition. Exhibitors must declare their dog is Owner-Handled eligible at the time of entry using the check box on the entry form. Eligible dogs will be identified by an asterisk in the steward's book & the catalog. Dogs must be handled throughout the breed level competition for the regular show by an eligible owner. Professional handlers, household members and current assistants to professional handlers may not exhibit the dog in this competition.

Junior Showmanship (divided by age):

AKC Junior Handler Numbers are now required for entry in Junior Showmanship Competition. Numbers may be obtained from the American Kennel Club - For additional information contact American Kennel Club, Junior Showmanship, P. O. Box 900051. Raleigh, NC 27675. Phone (919) 233-9767 or E-mail junior@akc.org
