Official Standard for the Pembroke Welsh Corgi

General Appearance

Low-set, strong, sturdily built and active, giving an impression of substance and stamina in a small space. Should not be so low and heavy-boned as to appear coarse or overdone, nor so light-boned as to appear racy. Outlook bold, but kindly. Expression intelligent and interested. Never shy nor vicious.

Correct type, including general balance and outline, attractiveness of headpiece, intelligent outlook and correct temperament is of primary importance. Movement is especially important, particularly as viewed from the side. A dog with smooth and free gait has to be reasonably sound and must be highly regarded. A minor fault must never take precedence over the above desired qualities.

A dog must be very seriously penalized for the following faults, regardless of whatever desirable qualities the dog may present: oversized or undersized; button, rose or drop ears; overshot or undershot bite; fluffies, whitties, mismarks or blues.

Size, Proportion, Substance

Height (from ground to highest point on withers) should be 10 to 12 inches. Weight is in proportion to size, not exceeding 30 pounds for dogs and 28 pounds for bitches. In show condition, the preferred medium-sized dog of correct bone and substance will weigh approximately 27 pounds, with bitches approximately 25 pounds. Obvious oversized specimens and diminutive toylike individuals must be very severely penalized.

Proportions--Moderately long and low. The distance from the withers to the base of the tail should be approximately 40 percent greater than the distance from the withers to the ground.

Substance--Should not be so low and heavy-boned as to appear coarse or overdone, nor so light-boned as to appear racy.

Head

The head should be foxy in shape and appearance. Expression--Intelligent and interested, but not sly. Skull--should be fairly wide and flat between the ears. Moderate amount of stop. Very slight rounding of cheek, not filled in below the eyes, as foreface should be nicely chiseled to give a somewhat tapered muzzle. Distance from occiput to center of stop to be greater than the distance from stop to nose tip, the proportion being five parts of total distance for the skull and three parts for the foreface. Muzzle should be neither dish-faced nor Roman-nosed. Eyes--Oval, medium in size, not round, nor protruding, nor deep set and piglike. Set somewhat obliquely.

Variations of brown in harmony with coat color. Eye rims dark, preferably black. While dark eyes enhance the expression, true black eyes are most undesirable, as are yellow or bluish eyes.

Ears--Erect, firm, and of medium size, tapering slightly to a rounded point. Ears are mobile, and react sensitively to sounds. A line drawn from the nose tip through the eyes to the ear tips, and across, should form an approximate equilateral triangle. Bat ears, small catlike ears, overly large weak ears, hooded ears, ears carried too high or too low, are undesirable. Button, rose or drop ears are very serious faults. Nose--Black and fully pigmented.

Mouth--Scissors bite, the inner side of the upper incisors touching the outer side of the lower incisors. Level bite is acceptable. Overshot or undershot bite is a very serious fault. Lips--Black, tight with little or no fullness.

Neck, Topline, Body

Neck--Fairly long. Of sufficient length to provide over-all balance of the dog. Slightly arched, clean and blending well into the shoulders. A very short neck giving a stuffy appearance and a long, thin or ewe neck are faulty. Topline--Firm and level, neither riding up to nor falling away at the croup. A slight depression behind the shoulders caused by heavier neck coat meeting the shorter body coat is permissible. Body--Rib cage should be well sprung, slightly egg-shaped and moderately long. Deep chest, well let down between the forelegs. Exaggerated lowness interferes with the desired freedom of movement and should be penalized. Viewed from above, the body should taper slightly to end of loin. Loin short. Round or flat rib cage, lack of brisket, extreme length or cobbliness, are undesirable. Tail--Docked as short as possible without being indented. Occasionally a puppy is born with a natural dock, which if sufficiently short, is acceptable. A tail up to two inches in length is allowed, but if carried high tends to spoil the contour of the topline.

Forequarters

Legs--Short, forearms turned slightly inward, with the distance between wrists less than between the shoulder joints, so that the front does not appear absolutely straight. Ample bone carried right down into the feet. Pasterns firm and nearly straight when viewed from the side. Weak pasterns and knuckling over are serious faults. Shoulder blades long and well laid back along the rib cage. Upper arms nearly equal in length to shoulder blades. Elbows parallel to the body, not prominent, and well set back to allow a line perpendicular to the ground to be drawn from tip of the shoulder blade through to elbow. Feet--Oval, with the two center toes slightly in advance of the two outer ones. Turning neither in nor out. Pads strong and feet arched. Nails short. Dew-claws on both forelegs and hindlegs usually removed. Too round, long and narrow, or splayed feet are faulty.

Hindquarters

Ample bone, strong and flexible, moderately angulated at stifle and hock. Exaggerated angulation is as faulty as too little. Thighs should be well muscled. Hocks short, parallel, and when viewed from the side are perpendicular to the ground. Barrel hocks or cowhocks are most objectionable. Slipped or double-jointed hocks are very faulty. Feet--as in front.

Coat

Medium length; short, thick, weather-resistant undercoat with a coarser, longer outer coat. Over-all length varies, with slightly thicker and longer ruff around the neck, chest and on the shoulders. The body coat lies flat. Hair is slightly longer on back of forelegs and underparts and some-what fuller and longer on rear of hindquarters. The coat is preferably straight, but some waviness is permitted. This breed has a shedding coat, and seasonal lack of undercoat should not be too severely penalized, providing the hair is glossy, healthy and well groomed. A wiry, tightly matted coat is very faulty, as is an overly short, smooth and thin coat. Very Serious Fault--Fluffies--a coat of extreme length with exaggerated feathering on ears, chest, legs and feet, underparts and hindquarters. Trimming such a coat does not make it any more acceptable. The Corgi should be shown in its natural condition, with no trimming permitted except to tidy the feet, and, if desired, remove the whiskers.

Color

The outer coat is to be of self colors in red, sable, fawn, black and tan with or without white markings. White is acceptable on legs, chest, neck (either in part or as a collar), muzzle, underparts and as a narrow blaze on head. Very Serious Faults: Whitelies--Body color white, with red or dark markings. Bluies--Colored portions of the coat have a distinct bluish or smoky cast. This coloring is associated with extremely light or blue eyes, liver or gray eye rims, nose and lip pigment. Mismarks--Self colors with any area of white on the back between withers and tail, on sides between elbows and back of hindquarters, or on ears. Black with white markings and no tan present.

Gait

Free and smooth. Forelegs should reach well forward without too much lift, in unison with the driving action of the hind legs. The correct shoulder assembly and well-fitted elbows allow a long, free stride in front. Viewed from the front, legs do not move in exact parallel planes, but incline slightly inward to compensate for shortness of leg and width of chest. Hind legs should drive well under the body and move on a line with the forelegs, with hocks turning neither in nor out. Feet must travel parallel to the line of motion with no tendency to swing out, cross over or interfere with each other. Short, choppy movement, rolling or high-stepping gait, close or overly wide coming or going, are incorrect. This is a herding dog, which must have the agility, freedom of movement, and endurance to do the work for which he was developed.

Temperament

Outlook bold, but kindly. Never shy or vicious. The judge shall dismiss from the ring any Pembroke Welsh Corgi that is excessively shy.

**AMERICAN KENNEL CLUB
SCHEDULE OF POINTS FOR DIVISION 8 - EFFECTIVE
MAY 12, 2025**

Division 8 is comprised of: Oregon, Washington

For complete Conformation Championship requirements see Chapter 16 of the Rules Applying to Dog Shows

The Points toward a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or Variety, the dogs of both sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that completed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of its own sex that have been entered for Best of Breed or Variety competition that have been defeated in competition for Best of Opposite Sex, shall be counted in addition to the dogs that completed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog and Winners Bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater. If no points are available for the Best of Winners, the number of regular class dogs in both sexes are added together and compared to the point schedule. If the total sum of regular class dogs and bitches meets or exceeds the number of competitors needed for one point in its sex, the Best of Winners will receive one championship point.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dis-missed, excused, or ordered from the ring by the judge, or from which all awards are withheld shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record, if six or more of said points shall have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of said points shall have been won under some other judge or judges than the two judges referred to above.

AKC Code of Sportsmanship

PREFACE: The sport of purebred dog competitive events dates prior to 1884, the year of AKC's birth. Shared values of those involved in the sport include principles of sportsmanship. They are practiced in all sectors of our sport: conformation, performance and companion. Many believe that these principles of sportsmanship are the prime reason why our sport has thrived for over one hundred years. With the belief that it is useful to periodically articulate the fundamentals of our sport, this code is presented.

- Sportsmen respect the history, traditions and integrity of the sport of purebred dogs.
- Sportsmen commit themselves to values of fair play, honesty, courtesy, and vigorous competition, as well as winning and losing with grace.
- Sportsmen refuse to compromise their commitment and obligation to the sport of purebred dogs by injecting personal advantage or consideration into their decisions or behavior.
- The sportsman judge judges only on the merits of the dogs and considers no other factors.
- The sportsman judge or exhibitor accepts constructive criticism.
- The sportsman exhibitor declines to enter or exhibit under a judge where it might reasonably appear that the judge's placements could be based on something other than the merits of the dogs.
- The sportsman exhibitor refuses to compromise the impartiality of a judge.
- The sportsman respects the AKC bylaws, rules, regulations and policies governing the sport of purebred dogs.
- Sportsmen find that vigorous competition and civility are not inconsistent and are able to appreciate the merit of their competition and the effort of competitors.
- Sportsmen welcome, encourage and support newcomers to the sport.
- Sportsmen will deal fairly with all those who trade with them.
- Sportsmen are willing to share honest and open appraisals of both the strengths and weaknesses of their breeding stock.
- Sportsmen spurn any opportunity to take personal advantage of positions offered or bestowed upon them.
- Sportsmen always consider as paramount the welfare of their dog.
- Sportsmen refuse to embarrass the sport, the American Kennel Club, or themselves while taking part in the sport.

Sue King, "Brumbaer"

My love of Pembrokes started with my love of horses. I had the privilege of working for some amazing trainers and accompanied horses all over the United States and Canada to compete in Grand Prix's and top hunter competition. It's here, at the horse shows, where I fell in love with this fantastic breed.

We've had the great privilege of finishing our dogs mostly at Specialties although some have been group winning and placing also. I will forever be indebted to Phyllis Farrer (Brunswig) who mentored both Karen and I in the breed. She was a wise woman when it came to breeding Pembrokes and she was willing to share her knowledge, but you had to ask the right questions!

I've been very fortunate to have judged Sweepstakes for the Western Reserve PWCC, Golden Gate PWCC, PWCC of Greater Atlanta, Gaitway PWCC of Greater St. Louis, Greater Houston PWCC, and supported entry sweeps for Mayflower PWCC. and the Cascade PWCC.

I find it incredibly humbling to be chosen by your peers to pass judgement on those youngsters and oldsters that they hold close to their heart, so for that opportunity thank you. I'm so looking forward to my assignment.

Conformation

Glenda Cook, "Westglen"

My introduction to the dog world goes back to 1956 when I first met and fell in love with the Pembroke Welsh Corgi. Since that time I have been actively associated with the breeding, exhibition and promotion of the breed. My kennel prefix of Westglen was first registered in 1956 and stock carrying its name has met with much success in Australia and various countries throughout the world. As a natural extension to the exhibition side of this hobby, my interests turned to judging and I officiated at my first show in Melbourne in 1968. I have been honored with numerous Corgi breed specialties worldwide, including two PWCCA National Corgi specialty shows, as well as corgi specialties in the UK, South Africa, Norway, New Zealand, The Czech Republic and of course Australia. I have also judged the breed at All Breed show level in numerous other countries on many occasions. In association with my husband I have bred and exhibited Pugs and owned and shown Afghan Hounds, but Pembroke Corgis have been a priority in my life since childhood. Throughout the years of my involvement in the dog world I have, and still do, have an active involvement in club and administration work, holding positions of office on several all-breeds clubs. I was actively involved in the establishment of the National Welsh Corgi Council, and have recently retired as President of the Welsh Corgi Club of Victoria and Editor of the Welsh Corgi in Australia handbook. I have also written many articles on dogdom for various publications. I am associated with the Victorian Canine Association Judges Training program and lecture regularly on many and varied subjects of interest to the dog world both in Australia and overseas. I am licensed to judge All Breeds. I am greatly indebted to the Pembroke Welsh Corgi breed, for it is through my involvement with it that I have seen the world and have made friends with so many people from different walks of life.

Mari Carroll – “BROGAN”

I am so delighted to return to Columbia River to judge your wonderful Pembrokes! I know I can expect quality and good sportsmanship as before. Thank you for this invitation. Beginning in 1976, I became involved in breeding, judging and exhibiting Pembroke Corgis under the BROGAN prefix (a combination of my daughters' names, Brooke and Megan.) Deborah Harper WAL-BORAH was my mentor then and greatly missed now. We are a small kennel located in Westport, CT which is on Long Island Sound, not far from NYC. Over the years BROGAN has successfully produced quality dogs with desirable type, even temperaments, correct movement and proper structure. While we do not breed often, our Corgis have been extremely successful in the specialty and all-breed rings, including the PWCCA National (BOB twice, BOS, BOW three times). Some of my notable dogs include CH Walborah's Abelia Brogan TDI, GCHB CAN CH Heritage Brogan Light the Lamp ROMX, GCH Brogan Love Letters, GCHB Brogan Golden Girl BCAT and MBIS, MBISS GCHP Beaumanor Brogan Charlotte. Currently I co-own, exhibit and breed with Dr. Robin Herrick of Beaumanor Pembrokes in Pennsylvania and we are very pleased with the Corgis that we are now presenting to the fancy. As a registered judge, licensed for both Pembrokes and Cardigans, I have judged all but two of the PWCCA Pembroke specialties in the USA, numerous supported entries and many all-breed shows. I have also judged National specialties in Canada, Australia, Russia and England. In 2026 I will adjudicate the bitches at our PWCCA National Show in St. Louis. I am a long-time member of Mayflower PWCC, Longshore/Southport Kennel Club and served seven years on the board of the PWCCA. I treasure the time I have spent in our breed and truly appreciate this opportunity to travel West and to see many of you again and hopefully new people as well.
