I'd like to take a moment to welcome you all to our CRPWCC *Corgiritaville* Specialty. It's wonderful to see everyone gathered here in our beautiful new park location; I truly hope you enjoy being here as much as I do.

This Specialty means so much to me, especially as the 2023 Best of Breed exhibitor, and it's a real pleasure to share this special event with all of you. I'm wishing each and every one of you the very best of luck and a wonderful day together.

I'd also like to take this opportunity to sincerely thank all of the committees and club members who have lent a helping hand to make this show possible. Your hard work, time, and dedication are truly appreciated. I also want to extend my heartfelt thanks to the Emerald Sheltie Club for welcoming our club and allowing us to hold our Specialty here in the park with them.

Official Standard for the Pembroke Welsh Corgi

General Appearance

Low-set, strong, sturdily built and active, giving an impression of substance and stamina in a small space. Should not be so low and heavy-boned as to appear coarse or overdone, nor so light-boned as to appear racy. Outlook bold, but kindly. Expression intelligent and interested. Never shy nor vicious.

Correct type, including general balance and outline, attractiveness of headpiece, intelligent outlook and correct temperament is of primary importance. Movement is especially important, particularly as viewed from the side. A dog with smooth and free gait has to be reasonably sound and must be highly regarded. A minor fault must never take precedence over the above desired qualities.

A dog must be very seriously penalized for the following faults, regardless of whatever desirable qualities the dog may present: oversized or undersized; button, rose or drop ears; overshot or undershot bite; fluffies, whitelies, mismarks or blues.

Size, Proportion, Substance

Height (from ground to highest point on withers) should be 10 to 12 inches. Weight is in proportion to size, not exceeding 30 pounds for dogs and 28 pounds for bitches. In show condition, the preferred medium-sized dog of correct bone and substance will weigh approximately 27 pounds, with bitches approximately 25 pounds. Obvious oversized specimens and diminutive toylike individuals must be very severely penalized.

Proportions--Moderately long and low. The distance from the withers to the base of the tail should be approximately 40 percent greater than the distance from the withers to the ground.

Substance--Should not be so low and heavy-boned as to appear coarse or overdone, nor so light-boned as to appear racy.

Head

The head should be foxy in shape and appearance. Expression--Intelligent and interested, but not sly. Skull--should be fairly wide and flat between the ears. Moderate amount of stop. Very slight rounding of cheek, not filled in below the eyes, as foreface should be nicely chiseled to give a somewhat tapered muzzle. Distance from occiput to center of stop to be greater than the distance from stop to nose tip, the proportion being five parts of total distance for the skull and three parts for the foreface. Muzzle should be neither dish-faced nor Roman-nosed. Eyes--Oval, medium in size, not round, nor protruding, nor deep set and piglike. Set somewhat obliquely. Variations of brown in harmony with coat color. Eye rims dark, preferably black. While dark eyes enhance the expression, true black eyes are most undesirable, as are yellow or bluish eyes.

Ears--Erect, firm, and of medium size, tapering slightly to a rounded point. Ears are mobile, and react sensitively to sounds. A line drawn from the nose tip through the eyes to the ear tips, and across, should form an approximate equilateral triangle. Bat ears, small catlike ears, overly large weak ears, hooded ears, ears carried too high or too low, are undesirable. Button, rose or drop ears are very serious faults. Nose--Black and fully pigmented.

Mouth--Scissors bite, the inner side of the upper incisors touching the outer side of the lower incisors. Level bite is acceptable. Overshot or undershot bite is a very serious fault. Lips--Black, tight with little or no fullness.

Neck, Topline, Body

Neck--Fairly long. Of sufficient length to provide over-all balance of the dog. Slightly arched, clean and blending well into the shoulders. A very short neck giving a stuffy appearance and a long, thin or ewe neck are faulty. Topline--Firm and level, neither riding up to nor falling away at the croup. A slight depression behind the shoulders caused by heavier neck coat meeting the shorter body coat is permissible. Body--Rib cage should be well sprung, slightly egg-shaped and moderately long. Deep chest, well let down between the forelegs. Exaggerated lowness interferes with the desired freedom of movement and should be penalized. Viewed from above, the body should taper slightly to end of loin. Loin short. Round or flat rib cage, lack of brisket, extreme length or cobbliness, are undesirable. Tail--Docked as short as possible without being indented. Occasionally a puppy is born with a natural dock, which if sufficiently short, is acceptable. A tail up to two inches in length is allowed, but if carried high tends to spoil the contour of the topline.

Forequarters

Legs--Short, forearms turned slightly inward, with the distance between wrists less than between the shoulder joints, so that the front does not appear absolutely straight. Ample bone carried right down into the feet. Pasterns firm and nearly straight when viewed from the side. Weak pasterns and knuckling over are serious faults. Shoulder blades long and well laid back along the rib cage. Upper arms nearly equal in length to shoulder blades. Elbows parallel to the body, not prominent, and well set back to allow a line perpendicular to the ground to be drawn from tip of the shoulder blade through to elbow. Feet--Oval, with the two center toes slightly in advance of the two outer ones. Turning neither in nor out. Pads strong and feet arched. Nails short. Dew-claws on both forelegs and hindlegs usually removed. Too round, long and narrow, or splayed feet are faulty.

Hindquarters

Ample bone, strong and flexible, moderately angulated at stifle and hock. Exaggerated angulation is as faulty as too little. Thighs should be well muscled. Hocks short, parallel, and when viewed from the side are perpendicular to the ground. Barrel hocks or cowhocks are most objectionable. Slipped or double-jointed hocks are very faulty. Feet--as in front.

Coat

Medium length; short, thick, weather-resistant undercoat with a coarser, longer outer coat. Over-all length varies, with slightly thicker and longer ruff around the neck, chest and on the shoulders. The body coat lies flat. Hair is slightly longer on back of forelegs and underparts and some-what fuller and longer on rear of hindquarters. The coat is preferably straight, but some waviness is permitted. This breed has a shedding coat, and seasonal lack of undercoat should not be too severely penalized, providing the hair is glossy, healthy and well groomed. A wiry, tightly mar-celled coat is very faulty, as is an overly short, smooth and thin coat. Very Serious Fault--Fluffies--a coat of extreme length with exaggerated feathering on ears, chest, legs and feet, underparts and hindquarters. Trimming such a coat does not make it any more acceptable. The Corgi should be shown in its natural condition, with no trimming permitted except to tidy the feet, and, if desired, remove the whiskers.

Color

The outer coat is to be of self colors in red, sable, fawn, black and tan with or without white markings. White is acceptable on legs, chest, neck (either in part or as a collar), muzzle, under-parts and as a narrow blaze on head. Very Serious Faults: Whitelies--Body color white, with red or dark markings. Bluies--Colored portions of the coat have a distinct bluish or smoky cast. This coloring is associated with extremely light or blue eyes, liver or gray eye rims, nose and lip pigment. Mismarks--Self colors with any area of white on the back between withers and tail, on sides between elbows and back of hindquarters, or on ears. Black with white markings and no tan present.

Gait

Free and smooth. Forelegs should reach well forward without too much lift, in unison with the driving action of the hind legs. The correct shoulder assembly and well-fitted elbows allow a long, free stride in front. Viewed from the front, legs do not move in exact parallel planes, but incline slightly inward to compensate for shortness of leg and width of chest. Hind legs should drive well under the body and move on a line with the forelegs, with hocks turning neither in nor out. Feet must travel parallel to the line of motion with no tendency to swing out, cross over or interfere with each other. Short, choppy movement, rolling or high-stepping gait, close or overly wide coming or going, are incorrect. This is a herding dog, which must have the agility, freedom of movement, and endurance to do the work for which he was developed.

Temperament

Outlook bold, but kindly. Never shy or vicious. The judge shall dismiss from the ring any Pembroke Welsh Corgi that is excessively shy.

AMERICAN KENNEL CLUB
SCHEDULE OF POINTS FOR DIVISION 8 - EFFECTIVE
MAY 12, 2026

Division 8 is comprised of: Oregon, Washington

For complete Conformation Championship requirements see Chapter 16 of the Rules Applying to Dog Shows

The Points toward a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or Variety, the dogs of both sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that completed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of its own sex that have been entered for Best of Breed or Variety competition that have been defeated in competition for Best of Opposite Sex, shall be counted in addition to the dogs that completed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog and Winners Bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater. If no points are available for the Best of Winners, the number of regular class dogs in both sexes are added together and compared to the point schedule. If the total sum of regular class dogs and bitches meets or exceeds the number of competitors needed for one point in its sex, the Best of Winners will receive one championship point.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dismissed, excused, or ordered from the ring by the judge, or from which all awards are withheld shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record, if six or more of said points shall have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of said points shall have been won under some other judge or judges than the two judges referred to above.

AKC Code of Sportsmanship

PREFACE: The sport of purebred dog competitive events dates prior to 1884, the year of AKC's birth. Shared values of those involved in the sport include principles of sportsmanship. They are practiced in all sectors of our sport: conformation, performance and companion. Many believe that these principles of sportsmanship are the prime reason why our sport has thrived for over one hundred years. With the belief that it is useful to periodically articulate the fundamentals of our sport, this code is presented.

- Sportsmen respect the history, traditions and integrity of the sport of purebred dogs.
- Sportsmen commit themselves to values of fair play, honesty, courtesy, and vigorous competition, as well as winning and losing with grace.
- Sportsmen refuse to compromise their commitment and obligation to the sport of purebred dogs by injecting personal advantage or consideration into their decisions or behavior.
- The sportsman judge judges only on the merits of the dogs and considers no other factors.
- The sportsman judge or exhibitor accepts constructive criticism.
- The sportsman exhibitor declines to enter or exhibit under a judge where it might reasonably appear that the judge's placements could be based on something other than the merits of the dogs.
- The sportsman exhibitor refuses to compromise the impartiality of a judge.
- The sportsman respects the AKC bylaws, rules, regulations and policies governing the sport of purebred dogs.
- Sportsmen find that vigorous competition and civility are not inconsistent and are able to appreciate the merit of their competition and the effort of competitors.
- Sportsmen welcome, encourage and support newcomers to the sport.
- Sportsmen will deal fairly with all those who trade with them.
- Sportsmen are willing to share honest and open appraisals of both the strengths and weaknesses of their breeding stock.
- Sportsmen spurn any opportunity to take personal advantage of positions offered or bestowed upon them.
- Sportsmen always consider as paramount the welfare of their dog.
- Sportsmen refuse to embarrass the sport, the American Kennel Club, or themselves while taking part in the sport.

Ann Marie Buonanno • Brnayr

Judge • Puppy & Veteran Sweepstakes, Altered

I purchased my very first corgi from Don Musgrave in 1995, started showing the following year, and soon became a part of Brnayr Pembroke Welsh Corgis. We have bred and shown approximately 25 champions over the last 30 years.

My very first judging assignment was judging the puppy match for the Cascade Pembroke Welsh Corgi Club in 2004. I have judged Sweepstakes classes for supported entries for GGPWCF and the Greater Houston club. My prior Specialty Sweepstakes assignments have been the Golden Gate Pembroke Welsh Corgi Fanciers in 2009, the Greater Houston Pembroke Welsh Corgi Fanciers in 2013 and 2025, the Pembroke Welsh Corgi Club of the Garden State in 2017, and the Cascade Pembroke Welsh Corgi Club in 2018.

I have been a member of GGPWCF for 29 years and a member of the PWCCA for 23 years.

I am incredibly honored to have been selected to judge the Sweepstakes classes and the Altered classes for the Columbia River Pembroke Welsh Corgi Club. I am really looking forward to this assignment!

Leslie Chalmers • *Merthyr*

Judge • All Regular & Non-Regular Conformation Classes

Lesley bought her first corgi in 1969 and bred her first litter of Merthyr corgis in 1972. Actually, it was “corgi”... a singleton! Since that time she has never wavered in her total love of the Pembroke and their delightful companionship.

Her second attempt at breeding was a bit more inspiring and produced an All Breeds BIS winner and two champions.

In the mid 80's she visited the UK for the first time and was very impressed with the late Connie Lewis' Bulcorig bitch lines. While there she was able to purchase the lovely NZ CH Bulcorig Zola of Cordach from Mary Winsone. She came to NZ in whelp to UK CH Belroyd Nut Cracker. Zola was followed by UK Ch Belroyd Puffin; UK Ch Bulcorig Zenita; NZ Cordach Chieftan; NZ CH Belroyd Emperor, NZ Grand CH Belroyd Friarbird & NZ CH Woodhenge The Dream Keeper. The first Merthyr corgi to go to the US was BISS Am & Can CH Merthyr And So It Is. Although not heavily used at stud, Taz produced 9 American Champions.

In 2023 the Merthyr Kennels were inducted into the NZ Breeders Hall of Fame, joining only 6 other kennels of all breeds.
